

To the Commissioners of the FCC:

After hearing that Media Ownership rules were to be reviewed for possibly changes to allow more conglomerate ownership of print and electronic media, I want to add my resolve that the current rules should be maintained. We need varied and diverse views to be aired in America and allowing large companies to concentrate the radio, cable and television assets of this country will undermine the public's right to know!

I urge you to reject any changes and maintain the current media ownership rules.

Richard Slawson
